HOW STANDARD INDUSTRIAL CLASSIFICATIONS (SIC) WORK FOR YOU...

Definitions of SIC Numbers

The Standard Industrial Classification (SIC) Code number indicates both the function (services, retail, wholesale or manufacturing) and the line of business in which the company listed is engaged.

All listings with the same SIC number are in the same line of business: e.g., book stores 5942; wholesaler of hardware 5072; manufacturer of luggage 3161.

The SIC code is a U.S. government index used to identify business activity.

The first two SIC digits show whether a business is a manufacturer, wholesaler, retailer or service organization within a basic industry. The third and fourth show the specific line of business.

20%

HAVE MOVED!

Don't use an old Directory!

On the average, 20% of the people listed in your Directory move during the year.

This means...

20% of the people shown in last year's Directory are people who are no longer there!

Vacant

One address taken from an old Directory may send you miles out of your way, waste considerable time, waste postage, mailing materials, gasoline, equipment and labour.

FRESH INFORMATION means more efficiency in selling, delivering, collecting, cheque cashing, fundraising.

MAKE SURE YOUR DIRECTORY IS FRESH
EVERY YEAR!

REMEMBER
